🍳 Provider Dashboard – Functional Requirement Document (FRD)

Introduction

Provider Dashboard **mess / tiffin provider** ke liye ek central system hai jahan se wo **orders, menu, earnings, customers aur settings** manage karega. Abhi dashboard basic hai, is document ka goal hai **complete professional-level provider dashboard** define karna.

🍴 Objectives

- Provider ko **real-time orders** manage karne ka control dena
- Daily **menu publish & edit** easily karwana
- **Earnings, payouts aur analytics** clear dikhana
- Customers ke saath **better coordination & feedback handling**
- Manual kaam kam karke **automation & speed** badhana

🌶️ 1. Dashboard (Home)

Status: ❌ Incomplete

🎂 Critical Features
